Skills

- JavaScript/jQuery, HTML/CSS, Python
- AWS Serverless
- Data Analysis, R

Relevant Experience

Amazon Web Services

Solutions Architect Intern

June 2021 September 2021

- Built a next generation technical validation tool that automated the validation flow and removed undifferentiated manual activities.
- Created a metrics dashboard which keeps track of validation statuses of incoming technical reviews.
- Shadowed multiple service delivery programs and foundational technical reviews.
- Created multiple serverless applications which ramped up my knowledge on AWS services.

PriceWaterHouse Coopers

Start Intern

June 2020 – August 2020

- Received data analytics and presentation certification in Excel, as well as digital badges for completion of training in Tableau, Alteryx, and UiPath
- Utilized tools, analysis, problem solving, and techniques/firm standards methodologies to support research
- Acquired hands on training within multiple fields including Advisory, Assurance, Tax and Audit to better appreciate integration of tax services into broader business functions and purposes

Accomplishments

- Dean's List.
- National Honor Society.
- AWS Cloud Practitioner.
